

Magalie R. Salas Federal Energy Regulatory Comm.
888 1st St. N.E. Rm. 1A
Washington, D.C. 20426 ~~Unrecorded~~

 ORIGINAL

We are writing This is to advise you the Long Island Sound does not need a costly, risky, LNG barge. The tranquil Long Island Sound would be forever ruined by private armed security forces surrounding the barge.

This barge Disrupts the peaceful tranquil waters of the Sound and limits public access and sets a dangrous precedent of industrializing the Long Island Sound.

We are totally against this action and hope that you will vote against it.

PLEASE RESPOND IN WRITING INFORMING US OF YOUR POSITION. PLEASE SEND A COPY OF ANY RESPONSE TO CCE FARMINDALE OFFICE---IT HELPS US TRACK PROGRESS ON THIS ISSUE.
Thank you.
